- TRUST

'SAFETY IS NO ACCIDENT'

American Packaging's Rotogravure Printing and Laminating Converting Center of Excellence recently **achieved 5 years without a Lost Time Accident.**

In the last 5 years, APC's Rotogravure center located in Columbus, WI has employed an average of 270 workers and manned **over 2,751,600 hours.** The company's Total OSHA Cases (TCIR) and Days Away/Restriction (DART) rates have been continuously below industry average even through 2 major expansions at this location.

The consistent effort and participation in safety throughout the organization, both at work and at home, is a major part in reaching this milestone. It takes a strong, focused group to create and then sustain a safe operation and only with total commitment by everyone is it achievable.

This same total commitment culture is demonstrated in superior quality, service and workmanship delivered to customers on a daily basis.
